

Use of the Course during Freezing Conditions

“The Blue Course”

In accordance with the advice received from our agronomist, greens will be closed during when frost or ice is present

To allow members who would still like to play in these conditions we have established a 13 hole course. We do not intend to create “temporary greens” as such, but will create a hole with a Blue flag on the fairway short of the green.

These 13 holes will be known as the “Blue Course”. The 5 par 3's are excluded. During frosty weather the Blue Course will be brought into play.

As soon as it is felt that conditions have improved sufficiently it will be announced that play may resume on the normal greens.

Information will be made available on the answer phone 706121, at the 1st Tee & On the Course.
